

Product/Process Change Notification Form

PCN Number:	PCN-2018-525
Date of Notification:	3/5/2018
Apex P/N(s):	PA341DW
Date PCN Effective:	2/9/2018
Reason for Change:	☐ Design /New Rev. ☐ Assembly Site ☐ Assembly Process ☐ Other (specify) Datasheet specification change.
Description of Change:	The specification for Input Offset Current (I _{OS}) is changed from 400 pA maximum to 1000 pA maximum.
Apex P/N Change:	☐ Yes, New Part Number:☑ No
Lot Effective Date:	Date code 1805
Quality & Reliability impact:	There is no effect on product quality and reliability Qualification Data: Required Not Required
Datasheet Change Required?	\boxtimes Yes \square No If Yes, briefly explain: The change is necessary due to PA341DW datasheet specification error identified in characterization review. The offset current is the differential input bias current of the inverting input bias current (-I _B) and non-inverting input bias current (+I _B) and is a function of those two parameters. The specification for -I _B and +I _B are not changed.
Acknowledgement of Receipt of Notice:	
Does customer waive PCN Effective Date?	
Company Name:	
	Title:
Signature	Date

Customer Representative is to obtain the customer acknowledgement/signature and return this notification to Apex Microtechnology, attn: PCN administrator at fax number (520) 888-3329, or email to custserv@apexanalog.com.

NOTE: Lack of acknowledgement within 30 days of the date of notice, constitutes acceptance of change. (Reference JEDEC Industry Standard: JESD-46)
